

## Workshop Description....

### Master Mentoring + Pouring

This workshop will be unique in that I will combine two of my workshops. I will offer two demos of pouring to showcase the technique along with an emphasis on personal mentoring as well. The personal mentoring portion involves each student either trying the pouring or painting in the style that they are comfortable with. I will give each student individual mentoring to move your work to the next level, fine-tune the composition, and personalize your color theory. We all enjoy learning new techniques but more importantly, the goal is to make all techniques our own. Finding a way to express our own vision and incorporate what we have learned into a signature style is the ultimate goal and finding our own artist's voice is the challenge.

As a full-time professional artist, Linda has created originals, reproduced a line of giclees'and has two instructional videos available through Creative Catalyst Productions. Along with her paintings, she has taught workshops world-wide and is a sought after juror. Her paintings appear in many publications including Masters of Watercolor by Konstantin Sterkhov and the North Light Splash series. Her honors include the Shenzhen Biennials, Qindao Invitational, American Watercolor Society, National Watercolor Society, the San Diego International, and most recently earned her Dolphin Fellow in the prestigious American Watercolor Society.
